Enhancements and Issues Fixed

Dashboard:
- A 100% width widget for Thumbnail and Quick Links has been introduced.

Galleries:
- Version control for Documents in the Document Gallery has been implemented.

Lists & Automation:
- The "Sent" condition for email templates has been implemented in the User Smart List and Company User List.
- An "Email Open Count" condition has been added to Contact, User, Organization, and Asset Scoring.
- The ability for Super Admins and users with full permissions to share assets with Company Organization Lists has been introduced.

Playbooks & LMS:
- The ability to create assets directly from a Playbook and associate them with a specific step has been implemented.
- Curriculum and Journeys: Instead of automatically completing a step upon clicking the "View" button, a manual "Mark as Done" button has been provided, enabling users to proceed to the next tab at their discretion.

Reports:
- Tracking of visits and reporting for the External Web Banner have been implemented.

Setup:
- "Group Managers" have been added for User Groups, allowing visibility into reports for all users within the group.
- Visibility settings for Account Custom Fields have been introduced.
- A Company-level setting has been provided for Super Admins and Site Admins to set the default filter condition to 'AND'.

View Assets:
- The "Copy Link" action has been enabled for the 'Direct Use' Dataroom under View Assets.

*Please note that some of the product updates described above are available in your account based on your current plan with Mindmatrix.
