

Product Release Announcement

Latest Software Release Notes, February 2026

Enhancements and Issues Fixed

Editor

- Dynamic asset filtering has been enabled in the Dataroom.

Playbooks

- Editing of the "Onboarding (Linear) Playbook and Curriculum" has been enabled after publication.

MDF

- In MDF, deleted requests can now be viewed by the user.

View Assets

- An option to download multiple assets from the "View Assets" page has been provided.

Reports

- In all charts in the reports, the "Week" numbering will now be based on ISO 8601.

Exports

- An export option for the Deal list has been provided.

Notifications

- In the Deal request notification email sent to the approver, buttons for "Accept" and "Reject" have been included.

Setup

- Organization fields have been made accessible to Super Admins.
- In Opportunities, text fields can be configured as read-only (for manual entry).
- Localization has been provided for text, textarea, and HTML editor values of Organization fields.

*Please note that some of the product updates described above are available in your account based on your current plan with Mindmatrix. Our team may need to enable an individual feature so you can gain access to it. If you would like to know more about adding a newly released feature to your account, email our team at support@mindmatrix.net. -- *Mindmatrix Services*
