

Product Release Announcement

Latest Software Release Notes, February 2025

Roadmap Items Released

Info Tips for Page Title with Visit Tracking:

- Info tips have been added for the page title, and a detailed report has been implemented to track user interactions with these tips.

Enhancements and Issues Fixed

Custom Fields:

- A configuration key has been provided to increase the maximum character limit for Text Area and HTML Text Area fields beyond 4000 for Opportunities and Solution fields.

Lists & Automation:

- User list, scoring, drip, and organization list conditions based on incentives earned have been implemented.
- Actions and notifications from User Automation to the Company User list have been introduced.

LMS:

- Curriculum: Upon completing an action for external media, the next step will be unlocked and expanded.
- The ability to share contact lists with Partner Admins and Channel Managers has been implemented.

Notifications:

- Channel Managers and Partner Admins will now be notified when assets are uploaded to the Organization.
- The option to notify Partner Admin(s) has been added in the Organization List, User, and Organization Automation.

Opportunities:

- Offline Activities for Opportunities have been implemented.

**Playbooks:**

- Journeys & Marketing Playbooks: 'Requires setup' templates are now supported in step-based nodes.

Setup:

- A "Protected" field has been introduced for users, preventing deletion or deactivation.

View Assets:

- The "Copy Link" action has been added for images, documents, and videos.
- A setting for 'Default Filter Condition' has been provided in the Asset configuration.

*Please note that some of the product updates described above are available in your account based on your current plan with Mindmatrix. Our team may need to enable an individual feature so you can gain access to it. If you would like to know more about adding a newly released feature to your account, email our team at support@mindmatrix.net. -- *Mindmatrix Services*
