

Product Release Announcement

Latest Software Release Notes, December 2025

Enhancements and Issues Fixed

Editor

- The option to add Company User Lists to the To field of User emails has been implemented for users with the required access.
- Grid lines have been introduced for Print templates.

Import

- During User import, dynamic association with Organizations is now performed based on the configured mapping.

Reports

- Clicking the Assets Used/Viewed count on the Organization Report page now loads the corresponding assets.
- When Asset Scoring is enabled, a Score column is displayed in the Asset Report.

Automation, Scoring, and Lists

- Deal-based conditions have been added to the User Smart List and Automation.
- The login activity option has been introduced as a separate primary condition in User Scoring, with support for thresholds and depreciation.

Notifications

- Users can modify notification preferences per module as needed. Reach out to support@mindmatrix.net to gain access to this feature.

Setup

- A Password Management page for Super Admins has been introduced. Email support@mindmatrix.net to have this page added to your navigation settings.
- A Lock Out functionality has been added for users with delete permissions, governed by role-based access controls.

*Please note that some of the product updates described above are available in your account based on your current plan with Mindmatrix. Our team may need to enable an individual feature so you can gain access to it. If you would like to know more about adding a newly released feature to your account, email our team at support@mindmatrix.net. -- *Mindmatrix Services*
